The Moral Dangers of Technocratic Medicine
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6699038/>

If you dare to take up the banner of freedom, you will be attacked from all sides. From the inside you will be attacked by your own mind and from the outside you will be attacked by everyone else's mind. Anyone who dares to succeed automatically presents a huge threat. If true freedom is going to survive within you, you have to be willing to fight for it. You have to have a sword in each hand at all times. One sword is for your own mind and the other sword is for everyone else's mind. You must be ready to use them. Anyone who wants to be truly free must be willing to stand alone in the truth.

Project MKOFTEN was a covert Department of Defense program developed in conjunction with the CIA. The goal of MKOFTEN was to:

"test the behavioral and toxicological effects of certain drugs on animals and humans".

Supposedly according to author Gordon Thomas' 2007 book, *Secrets and Lies*, the CIA's Operation MKOFTEN was also initiated by the chief of the CIA's Technical Services Branch, Dr. Sidney Gottlieb, to

"explore the world of black magic" and "harness the forces of darkness and challenge the concept that the inner reaches of the mind are beyond reach".

As part of Operation Often, Dr. Gottlieb and other CIA employees visited with and recruited fortune-tellers, palm-readers, clairvoyants, astrologers, mediums, psychics, specialists in demonology, witches and wizards, Satanists, other occult practitioners, and more.

The CIA has long been deeply involved with vaccines, viruses, drugs, weaponizing cancer, biological weapons, and of course massive mind-control operations – deadly propaganda in plain English – for use in controlling U.S. Americans and foreigners alike. As Kennedy writes in an ironically understated way, “The pervasive CIA involvement in the global vaccine push should give us pause. There is nothing in the CIA’s history, in its charter, in its composition, or in its institutional culture that betrays an interest in promoting either public health or democracy. The CIA’s historical preoccupations have been power and control. The CIA has been involved in at least seventy-two attempted and successful coup d’état between 1947 and 1989, involving about a third of the world’s governments. Many of these were functioning democracies. The CIA does not do public health. It does not do democracy. The CIA does coups d’état.

“After twenty years [since the insider anthrax attacks following September 11, 2001: see Graeme MacQueen’s, *The 2001 Anthrax Deception* (isbn.nu)] of modeling exercises, the CIA – working with medical technologists like Anthony Fauci and billionaire internet tycoons – had pulled off the ultimate coup d’état: some 250 years after America’s historic revolt against entrenched oligarchy and authoritarian rule, the American experiment with self-government was over. The oligarchy was restored, and these gentlemen and their spymasters had equipped the rising technocracy with new tools of control unimaginable to King George or any other tyrant.” - RFK Jr, *The Real Anthony Fauci*
